

ACE	angiotensin-converting enzyme
ADR	adverse drug reaction
AIDS	acquired immunodeficiency
AV	syndrome
BP	atrioventricular
BSA	British Pharmacopoeia
CNS	body surface area
CSF	central nervous system
DMA	cerebrospinal fluid
RD	disease-modifying
ECG	antirheumatic drug
EEG	electrocardiogram
G6PD	electro-encephalogram
GFR	glucose 6-phosphate
HIV	dehydrogenase

glomerular filtration rate
HRT
human immunodeficiency virus 6
INR
MDI hormone replacement therapy
NSAI international normalized ratio
D metered dose inhaler
spp. nonsteroidal anti-inflammatory
SSRI drug
USP species
WHO selective serotonin reuptake
inhibitor
United States Pharmacopeia
World Health Organization
